

# BILTON WARD DEVELOPMENTS

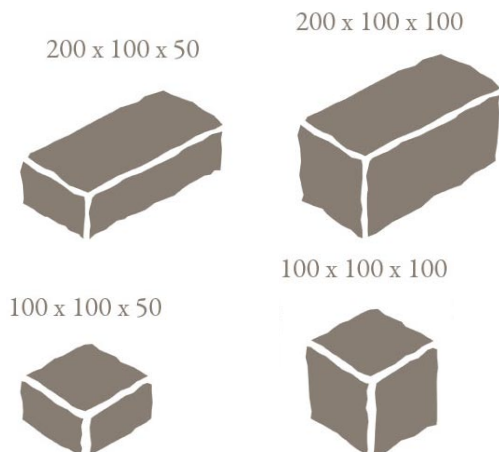

Block sandstone paving comes in a variety of brown and golden hues adding a level of detail and interest only natural stone can. For long life and frost resistance all the paving shown is bonded with an epoxy based sand and cement grout.

Block paving is available on our website in a wide range of stone types and sizes from sandstone, limestone, granite and Indian stone.

*Beautiful homes marrying  
traditional and contemporary design.  
Bilton Ward Developments, Cheshire.*

The exterior of this Bilton Ward property has been given the same meticulous attention to detail as the interior.

The finest of materials and finishes have been used. Block sandstone setts pave the gated entrance and driveway that surround the converted stables.

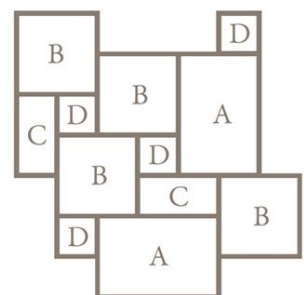

The Garden area is luxuriously paved in honed travertine which also forms the fish pond and fountain as well as the steps allowing the kitchen to open on to the garden. The travertine paving is accented with contrasting edge detail using jet black granite block setts.

The GOSS Notus travertine opus pattern is trimmed with 100x100x100mm jet black granite block setts.

Travertine paving with contrasting edge detail using jet black granite block setts. The paving uses a repeating pattern Hyperion Opus design as on our website.
